

WE'RE HIRING

Business Analyst

£27,000 - £35,000

We are looking for a great communicator with an analytical mind who can bridge the gap between our software projects and our businesses, developing their requirements, and identifying opportunities for change.

SKILLS REQUIRED

- A strong understanding of delivering and enhancing software products as a business analyst, where building end to end user journeys, processes and their supporting technologies is key
- The ability to build productive relationships with our businesses and third-party stakeholders.
- A team player who can work together with colleagues to continually improve the way we carry out business analysis.
- Excellent written and verbal communication skills, capable of working with people at all levels within and external to the business.
- A proven ability to accurately elicit, document, and deliver high quality deliverables including user stories, functional and non-functional specifications, 'as-is' and 'to-be' process models.
- Proven experience of ensuring the documentation and traceability of requirements and user stories throughout the software development lifecycle

WHY US?

For 150 years we have been recognised as one of Yorkshire's top employers. We are now driving new technologies to enhance our IT capabilities and revolutionise the way our company operates across its diverse business model. This enables us to remain a front runner

We have now made Digital transformation a strategic priority, with dedicated space for innovation in our stylish new head office, overlooking Hull Marina. We have several new vacancies to service the demands of our ever evolving business.

If you like variety, emerging technologies, discussing challenges with knowledgeable individuals and working in an entrepreneurial environment then this is the opportunity for you.

WHO ARE YOU?

Someone who can capture web designs and turn them into a reality.

You'll be responsible for creating and maintaining customer facing websites, along with being involved in the creation of user interfaces for exciting projects, such as Accountabl and Expensmate.

You'll love technology, staying up to date on the latest and greatest tools. Not only that but you'll like talking about it with other like-minded individuals and love to experiment for fun.

You'll want to learn, develop and grow with the department. We'll listen to any ideas you have too, so hopefully you have a few.
